

The screenshot shows a Microsoft Internet Explorer browser window with the title 'Werkgever neemt privesurfen voor lief - Digitaal Bestuur - Microsoft Internet Explorer wordt aangeboden door Diaz IT'. The address bar shows the URL 'http://www.digitaalbestuur.nl/Default.lynkx?id=1100'. The website content includes a navigation menu with 'home', 'zoeken', 'colofon', 'adverteren', and 'abonneren'. A date indicator shows 'dinsdag 10 oktober 2006'. Below this is a horizontal menu with 'nieuws', 'dossiers', 'evenementen', and 'services'. A sub-header reads 'Dagelijks nieuws over ICT in de publieke sector'. The main article is titled 'Werkgever neemt privesurfen voor lief' and is dated '5 oktober 2006'. The article text discusses ICT Barometer findings from Ernst Young, stating that employees spend 3.9 hours per week on private internet use, with 1.7 hours on surfing, 1.3 on email, and 0.9 on mobile phones. It quotes Jacob Verschuur, director of Ernst & Young ICT Leadership, noting that employers are more accepting of private internet use. The article also mentions that 56% of organizations have internet usage rules, and that small businesses (under 20 employees) are less regulated. It concludes by noting that public sector information is often less regulated, leading to more frequent citizen complaints about computer use in combination with private matters.
